

Press release

TRAFINEO becomes member of TelematicsPRO e.V.

Bochum, July 25th, 2018 – Trafineo GmbH & Co. KG joins the Berlin based telematics association TelematicsPRO e.V.

TelematicsPRO e.V. primarily represents the German telematics industry, promotes technologies and mediates between industry, politics and administration.

The main focus of the work of TelematicsPRO e.V. includes the standardization and certification in the field of “pay-by-phone parking” and public transportation, transport telematics and toll systems.

As part of TRAFINEO´ s work as an expert in the field of the transaction data management, as well as the strong commitment to the development of value added-services for the European Electronic Toll Service, TRAFINEO is also driving forward the development of its own telematics solutions.

Before this background, TRAFINEO is pleased to be accepted as a new member of TelematicsPRO and looks forward to a constructive collaboration.

About TRAFINEO:

TRAFINEO is a Bochum-based German expert for the cashless handling of toll transactions and vehicle related services throughout Europe and beyond. The customer base includes international operating fuel card issuers. TRAFINEO was founded in 2009 and since then acts as a link between its customers and the acceptance points. Besides the classic toll services, the product portfolio also includes numerous vehicle related services, such as parking and truck washing.
